## EDUCATION

Ahmadu Bello University, Zaria — *B.Sc. Computer Engineering*  
Expected year of graduation 2027

- **Relevant Certification:** Completed a software engineering course by digital for all and was certified on completion. Link to certificate: <https://drive.google.com/file/d/1nGAfAe-op46CUFcYmK-s4acPanDHqyDk/view?usp=drivesdk>

## EXPERIENCE

**Asynctechs** | Full-time — *Frontend Developer* November 2024 – Present

- Enhanced mobile UI for multiple pages, resulting in a 25% improvement in user engagement and satisfaction. Implemented robust user authentication features in the loan web app, reducing login errors by 30% and enhancing overall user satisfaction.
- Streamlined design elements for consistency and better responsiveness across devices.

Technologies: Next.js, Tailwind CSS, Styled Components

**SteamHive** | Freelancer — *Frontend Developer* October 2024 - Present

- Developed the frontend for a TURN server platform and integrated APIs, improving site performance metrics from 82% to 97% on Lighthouse.
- Improved loading times by 30% through code optimization and image compression techniques.

Technologies: Next.js, Tailwind CSS, Styled Components

**Palz Hotel** | Full-time — *Frontend Developer* January 2025 - Present

- Designed and developed a responsive hotel website that showcases rooms, amenities, and contact details, enhancing online visibility and guest inquiries.
- Optimized user experience with intuitive navigation, mobile-first design, and fast-loading pages to support bookings and customer engagement.

Technologies: HTML, CSS, JavaScript, Tailwind CSS

## SKILLS

**Technologies:** JavaScript, React.js, Next.js, Tailwind CSS, Node.js

**OS/Tools:** Windows | Git | GitHub | Vercel | Render.com

**Soft Skills:** Creativity | Teamwork | Communication | Leadership

## PROJECTS

**ChatNaija** | [chat-naija-ai.vercel.app](https://chat-naija-ai.vercel.app)

- Collaborated with a team of developers to create a Nigerian multilingual chatbot supporting Pidgin, Yoruba, Igbo, and Hausa, providing inclusive communication solutions. The website offers a curated selection of Nigerian urban fashion, featuring new arrivals and limited offers for easy purchase.
- Increased engagement by implementing conversational AI tailored to diverse Nigerian demographics.

Technologies: React.js, Tailwind CSS.

**Farmlinx AI** | [farmlinx-ai.vercel.app](https://farmlinx-ai.vercel.app)

- Built an AI-powered farm monitoring platform designed for African farmers, particularly in Nigeria, enabling tailored tips to improve productivity.
- Incorporated multilingual chatbot functionality to bridge language barriers and promote widespread adoption.
- Enhanced food security efforts by integrating AI-driven insights based on collected farm data.

Technologies: React.js, Tailwind CSS, Node.js, MongoDB, Clerk, Gemini API, React Markdown.

**Kwikly** | [kwikly-xi.vercel.app](https://kwikly-xi.vercel.app)

- Built a gamified study platform that helps university and high school students, especially those in STEM, retain information through active recall quizzes based on their lectures.
  - Integrated XP-based ranking, custom avatars, and interactive quizzes to make studying more engaging and motivating.
  - Enabled students to track progress and build consistent revision habits in a fun, game-like environment.
- Technologies: Next.js, Tailwind CSS, Node.js, MongoDB, Cloudinary, Vercel, Render.
